# NUTTALL

The vision of sisters Gytha Bouchon and Amber Aikens, Nuttall ushers in a new generation of furniture and home accessories. Inspired by the best of European craftsmanship, which fuses the excellence of traditional artisanal skills and modern technology together with a strong English aesthetic, each piece is designed to last for generations.

In the beautiful showroom in Chelsea Green's Pond Place, clients can see for themselves the Nuttall trademark of quality. Each piece is made to order and delivered with a certificate of authenticity. Nuttall is also delighted to offer customers the Loro Piana interiors range for a sumptuous finishing touch.

After graduating from Sotheby's with a Furniture and Fine Arts Diploma, Gytha Bouchon went on to study at the Inchbald School of Design. In 2000 Gytha founded Nuttall Designs and has been designing furniture for private clients ever since. But, it was not until her younger sister Amber Aikens brought her vast experience in marketing luxury brands forward that Gytha was persuaded to make her designs available to a wider market, and that the concept of Nuttall was born. Visit them in Chelsea to discover "The accumulation of small details done to perfection".
